DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a cyclotron for the acceleration of a charged particle beam having, inter alia, an axial injector located on the outside of the cyclotron, essentially in accordance with the main axis of the cyclotron and a magnetic inflector for inflecting the particle beam until it is positioned in the median plane (claims 1, 10, 13 and 20). The remaining claims 3-9, 11, 12, 14-19 and 21 are allowed by virtue of their dependencies from the independent claims. Hence, the examiner has allowed claims 1 and 3-21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Haissa Philogene whose telephone number is (571) 272-1827. The examiner can normally be reached on 8:30 A.M.-6:00 P.M..
